SECTION A: COURSE DETAILS

1	Course Name	Law of the Sea and Ship Operation					
2	Course Code	LOB 30603					
3	Academic Staff Name(s)	Amayrol Bin Zakaria					
4	Rationale for inclusion of Course in the Programme	This course is meant to expose participants on the regulations imposed on ship owners and ship managers on the acquisition and operation of ships registered with the Malaysian government or operated in Malaysian waters. In addition, knowledge on the Law of the Sea is also imparted to students as it is imperative for those involved in ships operations to abide by the United Nations Law of the Sea Convention. Knowledge gained from this course will provide a good foundation for ships to be operated smoothly and safely and will prevent ship owners and operators that have taken due consideration of the legal requirements from any serious setbacks.
