## "Awareness on Marine and Coastal Pollution for Environmental Sustainability"

by,

Dr. Corrienna Abdul Talib  
Universiti Teknologi Malaysia (UTM)

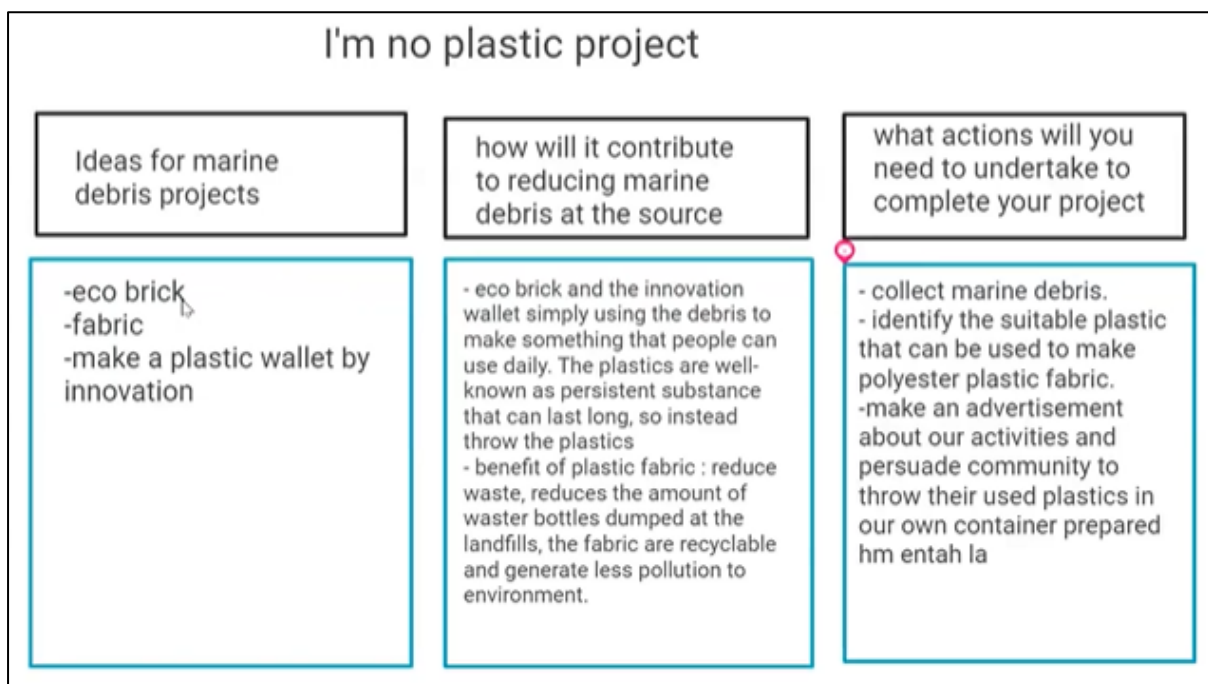

ENVIRONMENT – ISSUE AND GLOBAL PERSPECTIVE

2<sup>nd</sup> MAY 2021 | SUNDAY | 4:00PM

## Content

The 1-hour talk explains the various type of pollutants such as sewage, plastics and e-waste in our environment. For a more detailed explanation, the talk focus on marine debris and plastic pollution. How we as an individual can do to reduce the marine debris also be emphasized in the talk. The students also respond how long it does take debris to decompose in the environment. After the talk, students are given a group assignment in *jamboard* to present *I'am not plastic project*.

Example of the *jamboard* activity.

## Impact on the participants

In this talk, the awareness of marine and coastal pollution for environmental sustainability among students might increase. Several videos show how people who love the environment care for the environment have got the students attention. Students are also learned to propose ideas on reducing plastics pollution in the environment. They also can understand what is the best ideas to apply to the communities such as school children.

## List of participants

A total of 53 participants including the invited speaker and two lecturers, participate in the talk.
