## Port and Marine Constructions - Bachelor's course (MARE-VMU-P6)

View Edit Manage display

Coordinator: **Vietnam Maritime University**

Credits: **3 ECTS**

Lecturers: **Tran Duc Phu**

Level: **Bachelor**

Host institution: **Ho Chi Minh City University of Natural Resources and Environment**

# COURSE OUTLINE

Week	Topics
Week 1&2	Overview of ports and the role of ports in economic development
Week 3&4	Basic factors to consider in port planning & design
Week 5&6	Environmental conditions
Week 7 & 8	Planning and designing port's land
Week 9 & 10	Port's waters planning and design
Week 11 & 12	Mechanization of cargo handling in ports
Week 13 & 14	Port warehouse design and plan
Week 15	Marine constructions and auxiliary equipments

## VMU - Syllabi for MARE courses

Based on the results of surveys in the first period of MARE project, the VMU's coordinating board had consulted carefully with expertized faculties and institutes to decide which parts need to be revised and adjusted. After that, syllabus of courses has been gradually made and completed to be well-prepared for training. A syllabus consists of clear objectives, targeted group, timetable, desired learning outcomes and learning methods. Furthermore, Vietnam Maritime University and Ho Chi Minh University of Natural Resources and Environment collaborated on creating and developing the learning program with the purpose of enhancing interaction and efficiency among partner institutions in Vietnam. The syllabi for MARE courses are mentioned as the following attached files.

1. Hydro-Meteorology
2. Port and Marine constructions
3. Sustainability in coastal construction
4. Control and management of marine environment
5. Environmental Law and Policy
6. Ocean Environmental Management
