**MARE -Marine Coastal and Delta Sustainability for Southeast Asia**

<b>Title:</b>	MARE - Marine Coastal and Delta Sustainability for Southeast Asia
<b>Number:</b>	610327-EPP-1-2019-1-DE-EPPKA2-CBHE-JP
<b>Coordinator:</b>	Center for Multimedia in Higher Education (ZMML), University of Bremen
<b>Partners:</b>	UniHB, UNICT, EMU, CNR, HCMUNRE, VMU, CTU, MCD, VNIO, UniKL, UTM, UTP. UMT

**Activity:** Meeting - MARE Vietnam partners and stakeholders for SCP

**Objectives of the meeting:**

- Introduction of MARE Vietnam for key stakeholders
- Engagement of key stakeholders for SCP in MARE Vietnam
- Discussion and inputs from key stakeholders

**Participants:**

HCMUNRE, VMU, CTU, VNIO, MCD

VISI, VASI, Department of Laws and Policy MONRE, XT National Park, UoT, STG, DONRE, Hanoi University of Sciences, Hanoi University of Natural Resources and Environment, Water Resources University, ISPONRE, VIFEP, OC, WWF, IUCN

**Contents: This meeting was a session incorporated in the agenda of National Training and Stakeholder Workshop strengthening the exchange of information, science and technology to support the implementation of the National Action Plan on Marine Plastic Waste Management co-organized by MCD and VISI with more than 70 participants from various agencies, organizations and academic institutions, which included representatives of all MARE project Vietnamese partners MCD, HCMUNRE, CTU, VMU and VNIO**

**14:00 - 15:30: Scientific inputs for initiatives, good practice models in coastal and marine environment protection**

14:00 - 14:20: International experiences from the Ocean Conservancy (OC) and University of Toronto (Canada)

14:20 - 15:00: Scientific and technological inputs from research and tertiary education

- + Waste pollution in riverine and coastal areas – case studies from University of Toronto
- + Coastal and delta management – highlights from MARE project with improvements in tertiary education

15:00 - 15:30: Discussion for engagement of key stakeholders for stakeholder collaboration platform (SCP) for enhancing interactions with tertiary education

Erasmus+ Programme  
of the European Union

## MARE -Marine Coastal and Delta Sustainability for Southeast Asia

### Notes

The Vietnamese partners of the Marine Coastal and Delta Sustainability for Southeast Asia (MARE) Project participated in the National Training and Stakeholder Workshop co-hosted by MCD, VISI and DONRE on strengthening the exchange of information, science and technology to support implementation of the National Action Plan on Marine Plastic Waste Management organized on July 27, 2022. The event was attended by more than 70 participants from various agencies, organizations and academic institutions, which included representatives of all MARE project Vietnamese partners MCD, HCMUNRE, CTU, VMU and VNIO.

The MARE project partners had a special working session to make scientific and technological inputs from research and tertiary education for initiatives, good practice models in coastal and marine environment protection. In that session, the MARE project partners made introduction of MARE Vietnam for the key stakeholders, with highlights from MARE project in improvements of Vietnamese tertiary education on coastal and delta management, which aimed to engage relevant academic & non-academic organisations and CDM employers in MARE project activities and resources through a SCP. The follow-up discussion was facilitated for the key stakeholders to have Q&A about MARE project and provide comments on further involvement in the SCP. It was suggested that a web corner of a MARE partner could be used to exchange information and activities and other next workshops organized by MARE partners with relevant contents about CDM should also be informed to the relevant stakeholders for participation.
